## Formulary

### BSAVA Small Animal Formulary 12th edition – Part A: Canine and Feline

Editor-in-Chief:  
Fergus Allerton

**PUBLISHING INFORMATION**  
Published 2026 · 472 pages  
ISBN: 978 1 913859 47 3  
e-ISBN: 978 1 913859 49 7

The BSAVA Small Animal Formulary remains one of the most trusted and widely used resources in small animal practice, helping clinicians make safe, evidence-based decisions every day. This 12th edition covering cats and dogs includes new monographs on drugs such as citalopram, enflucloxiib, ilunocitinib and venlafaxine, reflecting the expanding range of therapeutic options available to our patients.

The addition of new appendices – including a seizure algorithm, detailed guidance on supplements and nutraceuticals, and expanded information on contrast agents – enhances its practical value in daily case management.

Accompanied by more than 100 client information leaflets available via the BSAVA Library [bsavalibrary.com/CIL](http://bsavalibrary.com/CIL) (free to BSAVA members).

### BSAVA Small Animal Formulary 12th edition – Part B: Exotic Pets

Editor-in-Chief:  
Joanna Hedley

**PUBLISHING INFORMATION**  
Published 2026 · 328 pages  
ISBN 978 1 913859 48 0  
e-ISBN 978 1 913859 50 3

The 12th edition of the BSAVA Small Animal Formulary: Exotic Pets continues to set the standard for responsible prescribing in the growing and diverse field of exotic animal medicine. The clinical management of these species remains both rewarding and challenging. Veterinary practitioners are faced with a diverse range of taxa, each with distinct anatomical, physiological and metabolic characteristics.

This edition introduces new monographs, including afoxolaner, atorvastatin, and danofloxacin, broadening the therapeutic scope for an ever-wider range of species. A new appendix on barium contrast media and the addition of emergency doses on the inside front cover provide valuable quick-reference support for clinicians in urgent situations. There are also new client information leaflets covering routes of administration.

## For the practice team

### BSAVA Manual of Practical Veterinary Welfare

Edited by: Matthew Rendle and Jo Hinde

**PUBLISHING INFORMATION**  
Published 2022 · 264 pages  
Print ISBN: 978 1 910443 78 1  
e-ISBN: 978 1 910443 79 8

Awareness of animal sentience and welfare continues to grow in parallel with that of human mental health. This manual for the whole practice team provides concise practical information on how to assess and maintain the highest standards of welfare in all veterinary environments.

Written by a team of experts from a range of disciplines, the manual is relevant to all veterinary professionals and animal carers, as well as those studying animal welfare and behaviour. This title takes a holistic approach to animal health and considers the welfare of the veterinary team.

“...an excellent resource regarding animal welfare with many in-depth discussions

## **BSAVA Manual of Small Animal Practice Management and Development**

Edited by: Carole Clarke and Marion Chapman

**PUBLISHING INFORMATION**  
Published 2012 · 544 pages  
ISBN: 978 1 905319 40 4  
e-ISBN: 978 1 910443 15 6

This manual is not just another management book. The first section discusses each clinical area of the practice in turn; its design, equipment and maintenance, and the organization and management of the clinical and support teams.

The second part covers communication and people management, including leadership skills and self-management, together with ethical and legal aspects. Thirdly, the business aspects of veterinary practice are explored. Examples of forms, protocols and standard operating procedures are provided.

“*...the Editors and authors are to be congratulated on producing a sound, practical text which is easy to read and covers the topic in a novel way...*”

## **BSAVA Manual of Canine and Feline Rehabilitation, Supportive and Palliative Care Case Studies in Patient Management**

Edited by: Samantha Lindley and Penny Watson

**PUBLISHING INFORMATION**  
Published 2010 · 412 pages  
ISBN: 978 1 905319 20 6  
e-ISBN: 978 1 905319 91 6

This manual is for the whole veterinary team, drawing on all their skills to help patients achieve as full a function and quality of life as possible after surgery, trauma or disease, and to manage chronic conditions effectively for the benefit of the animal, owner and the practice team.

The principles of rehabilitation, supportive and palliative care are detailed. The science behind pain and its management, clinical nutrition and physical therapies is explored, and the clinical applications are reviewed with reference to published evidence. Case-based scenarios demonstrate how the principles of rehabilitation can be put into practice.

**Price: £90.00**

## **BSAVA Manual of Canine and Feline Shelter Medicine Principles of Health and Welfare in a Multi-animal Environment**

Edited by: Rachel Dean, Maggie Roberts and Jenny Stavisky

**PUBLISHING INFORMATION**  
Published 2018 · 384 pages  
ISBN: 978 1 905319 84 8  
e-ISBN: 978 1 910443 33 0

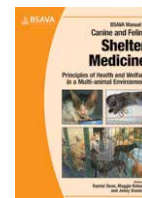

This manual provides a practical guide on how to deal with various clinical situations that arise when working with cats and dogs in a shelter environment. The first part of the manual describes the principles of shelter medicine and population health. The second part covers the prevention, management and control of disease in a shelter environment. The final part provides information on working with people in the shelter environment.

“*...this book has an important place on any practice bookshelf...*”

## BSAVA Manual of Canine and Feline Abdominal Imaging

Edited by:  
Robert O'Brien  
and Frances Barr

**PUBLISHING INFORMATION**  
Published 2009 · 264 pages  
ISBN: 978 1 905319 10 7  
e-ISBN: 978 1 905319 71 8

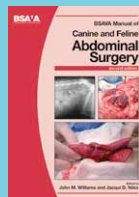

The introductory section of this manual outlines the approach to abdominal imaging, with chapters dedicated to radiography and ultrasonography. The second section is devoted to imaging of the abdominal spaces and the common structures, including the vasculature and lymphatic system. The remainder of the manual is given over to the individual body systems.

**Price: £90.00**

## BSAVA Manual of Canine and Feline Abdominal Surgery Second edition

Edited by: John Williams  
and Jacqui Niles

**PUBLISHING INFORMATION**  
Published 2015 · 392 pages  
ISBN: 978 1 905319 62 6  
e-ISBN: 978 1 910443 24 8

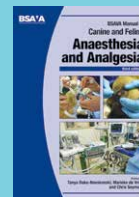

This manual provides a practical up to date surgical reference that is easy to read and follow. The manual begins with introductory chapters on principles of abdominal surgery and equipment and surgical instrumentation before going on to consider in depth the most common soft tissue surgical conditions of the abdomen. Chapters on various organ systems follow. Step-by-step Operative Techniques detail the common procedures in an easy to follow practical way, with notes on patient positioning and preparation, instrumentation and postoperative care.

## **BSAVA Manual of Canine and Feline Dermatology** Fourth edition

Edited by: Hilary Jackson and Rosanna Marsella

### **PUBLISHING INFORMATION**

Published 2021 · 304 pages  
ISBN: 978 1 910443 80 4  
e-ISBN: 978 1 910443 81 1

Skin and ear diseases represent common problems in general practice. As the response to treatment largely depends on the correct identification of the primary disease, a systematic step-by-step approach is critical. The purpose of the BSAVA Manual of Canine and Feline Dermatology is to be an easy-to-read resource focused on the clinically relevant aspects of dermatological diseases.

In this edition, the initial chapters review the basic structure and function of the skin and discuss a logical approach to history taking and the core investigative tests that can be performed. New to this edition is a separate chapter on skin cytology, which features many excellent images illustrating the cytology of common skin conditions that we hope will be useful to practitioners.

**Price: £95.00**

## BSAVA Manual of Canine and Feline Thoracic Imaging Second edition

Edited by: Tobias Schwarz and Peter Scrivani

**PUBLISHING INFORMATION**  
Published 2024 · 472 pages  
ISBN: 978 1 910443 93 4  
e-ISBN: 978 1 910443 94 1

This new edition provides a comprehensive overview of diagnostic imaging of the canine and feline thorax. The manual includes dedicated sections on the principles of thoracic imaging interpretation and individual body systems, clearly structured for information retrieval. High-quality images and illustrations demonstrate normal radiographic appearance and abnormalities associated with disease.

The second edition adds new scientific knowledge mainly gained in CT and MRI including knowledge that can be applied to radiographic interpretation, still the most widely used imaging modality for this body system.

## BSAVA Manual of Avian Practice A Foundation Manual

Edited by: John Chitty and  
Deborah Monks

**PUBLISHING INFORMATION**  
Published 2018 · 472 pages  
ISBN: 978 1 905319 81 7  
e-ISBN: 978 1 910443 32 3

This manual covers species of psittacids, passerines and raptors often seen in practice, and begins by covering the important general issues in effective avian practice, including handling and transportation, clinical examination, critical care and basic techniques. A problem-oriented section follows, providing guidance on how to approach the most frequent presentations.

The case examples and quick reference guides present practical techniques and treatments in an easy-to-follow format, with clear colour illustrations. The manual also features a selection of videos demonstrating common techniques.

**Price: £85.00**

## BSAVA Manual of Backyard Poultry Medicine and Surgery

Edited by: Guy Poland  
and Aidan Raftery

**PUBLISHING INFORMATION**  
Published 2019 · 376 pages  
ISBN: 978 1 905319 43 5  
e-ISBN: 978 1 910443 19 4

There has been a resurgence in the number of people keeping backyard poultry and they will often be seen as much loved pets. When a backyard bird becomes ill, therefore, their owner expects access to caring and competent veterinary care, often with an expectation that such care should meet the standard on offer to their dog or cat. This manual provides quality information to help veterinary professionals provide the level of care that clients expect and deserve.

## BSAVA Manual of Rabbit Surgery, Dentistry and Imaging

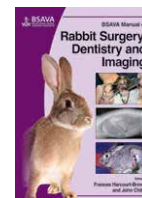

Edited by:  
Frances Harcourt-Brown  
and John Chitty

**PUBLISHING INFORMATION**  
Published 2013 · 448 pages  
ISBN: 978 1 905319 41 1  
e-ISBN: 978 1 910443 16 3

This manual concentrates on the major surgical and dental conditions that are common in rabbits. Anaesthesia and analgesia are discussed first, including practical advice on different regimes for different situations and risk levels. The section on imaging covers radiographic techniques, ultrasonography, endoscopy, CT and MRI. The third part of the manual is devoted to surgical techniques, including general principles and specific procedures. The final section is devoted to dental disease and abscessation. The text is accompanied by step-by-step Operative Techniques for surgical and dental procedures.

## BSAVA Manual of Raptors, Pigeons and Passerine Birds

Edited by: John Chitty and Michael Lierz

### PUBLISHING INFORMATION

Published 2008 · 420 pages  
ISBN: 978 1 905319 04 6  
e-ISBN: 978 1 910443 10 1

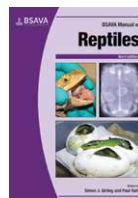

At some stage most veterinary surgeons will be asked to treat one of these types of bird. This manual provides in-depth coverage of the commonly kept species and the problems seen in clinical practice. The manual covers husbandry, medicine and surgery and includes a formulary and laboratory reference ranges. While concentrating on providing easy access to information, the manual also serves as an introductory text for those wishing to study the subject in greater depth.

## Guides

## BSAVA Cognitive Aids for Anaesthesia in Small Animal Practice

Edited by: Matt McMillan

**PUBLISHING INFORMATION**  
Published 2020 - 68 pages  
Spiral bound  
Print ISBN 978 1 910443 75 0  
e-ISBN: 978 1 910443 91 0

This guide presents a series of checklists and other cognitive aids designed to improve safety during veterinary anaesthesia. Cognitive aids reduce reliance on memory and have been demonstrated to save lives and reduce the incidence of complications such as postoperative infections. They have also been shown to improve team performance in crisis situations in operating theatres.

Additional online resources are available via the BSAVA Library.

“...provides a valuable tool fostering safe, successful anaesthetic management...”

## BSAVA Guide to Nutrition in Small Animal Practice

Written by:  
Georgia Woods-Lee

**PUBLISHING INFORMATION**  
Published 2025 - 200 pages  
ISBN: 978 1 913859 39 8

This new title is an essential guide for veterinary professionals on appropriate nutrition for animals under their care.

Veterinary professionals are often called upon to provide guidance on appropriate nutrition for animals under their care. Nutrition is the cornerstone of good veterinary care and should form part of the discussion with every pet owner seeking advice. Veterinary professionals should provide advice based on sound scientific evidence, excellent clinical reasoning and informed risk management. Given the wealth of information available to pet owners, it is the responsibility of veterinary professionals to assist clients in making decisions about what to feed their pet.

- Different types of diet
- Life-stage feeding
- Hospital and critical care nutrition
- Management strategies for adverse reactions to food
- Nutrition in pets with chronic kidney disease and other specific diseases
- Owner factsheets available online

## BSAVA Guide to The Use of Veterinary Medicines (2023)

Edited by:  
Pam Mosedale and  
David Harris

The BSAVA Guide to the Use of Veterinary Medicines is designed to help you navigate the minefield of issues, changes and regulations, and also to promote best practice.

The guide was most recently updated in late 2024 to reflect changes in the Veterinary Medicines Regulations. It is organised in four sections covering medicines; dispensary management and staff training; responsible use of medicines; and sustainability.

## BSAVA/VPIS Guide to Common Canine and Feline Poisons

**PUBLISHING INFORMATION**  
Published 2012 (updated 2026) · 184 pages  
ISBN: 978 1 905319 45 9 · e-ISBN: 978 1 905319 83 1

This guide presents thumbnail sketches of pertinent information relating to poisoning of small animal pets by commonly encountered substances, plants and other items to enable veterinary surgeons and their staff to give appropriate guidance to clients that suspect their animals may have been poisoned. For each agent, information is given on toxicology, clinical effects, appropriate first aid and subsequent management and prognosis. A 'traffic light' system indicates the level of concern and urgency.
